COVID-19 positivity rate increasing in Wadena County

WADENA, Minn. – Apr. 16, 2021 – On a county and state level, COVID-19 positivity rates are rising. This influx of new cases is reminiscent of the surge that occurred in the Fall of 2020. Tri-County Health Care is working with Wadena County Public Health to combat this trend.

Please continue to follow all mitigation strategies, which include mask-wearing and social distancing. If you haven't already, please consider receiving the COVID-19 vaccine. Tri-County Health Care reminds everyone that it is possible to contract COVID-19 even after receiving the vaccine. However, the vaccine and mitigation strategies are our best defense against the spread of COVID-19. Medical professionals are urging everyone to continue practicing mitigation strategies even after getting the vaccine.

Please visit tchc.org/covidvaccine for more information about the COVID-19 vaccine. Call 218-631-5205 to be placed on a waitlist for upcoming vaccine appointments.

ABOUT TRI-COUNTY HEALTH CARE

Tri-County Health Care is a private, not-for-profit health care system based in Wadena, Minnesota. It offers care services such as primary health, surgery, cancer care, diagnostic imaging, obstetrics, orthopedics and rehabilitation.
