

**2025**

Corporate Sponsorship  
Opportunities

In partnership with CentraCare, the cancer center project will include infusion, radiation oncology, and supportive care which is estimated to cost \$23.7 million.

The 15,350 square-foot addition is under construction on the west end of the Main Campus. The project will be funded through a tax-exempt loan, as well as a Capital Fundraising Campaign through donations and grants.

The Asteria Health Foundation has a philanthropy goal of \$2 million to build and meet operational goals for the first three years. All donations to the Foundation in 2025 and 2026 will benefit the cancer center.

With generous community support, we plan to open our new cancer center in the Summer of 2025.
